

VERONICA C JOHNSON

Resume

I was born in Maryland and currently make my home in Georgia.

I have been participating in a web development coding bootcamp since June trying to rebrand myself and change the course of my career.

I have much experience in systems administration as well as workstation support. I am particularly interested in the problem solving aspect and the testing of new technologies.

Projects

Bosco

Pet page about my dog, just a little info about him.

HTML, CSS

Vacation Planner

Gets different points of interest and returning them as items the user can have as a list of things to see during a trip.

HTML, CSS, MYSQL, Node.js, Javascript
